RED ARMY ATTACKING IN MANY SECTORS

Soviets Drive Back Tiring Nazis

By EDWARD R. BRATTIN, JR.

LONDON, Sept. 2.—A big Russian army is driving savagely into tiring Nazis forces on a 175-mile front between Smolensk and Orel, the northern end of the Pripet marshes, in the first big Russian counter-offensive of the war. It was understood in authoritative quarters today.

The most significant indication that the Russians were driving the Germans back, inflicting costly losses, and after three weeks of constantly delaying, at a cost of gaining a momentum threatening the entire German arm of front, was the news that a Russian army which drove through to Gomel, Press reports from Stockholm said, had fought their way back to the River Dnieper and held the towns of Rognov and Zhitomir, in the west of it.

GERMAN COUNTER-ATTACKS

The Russians are now countering attacking on the Leningrad front and in the lower Ukraine.

The Russian army in the main sector, between Smolensk and Orel, was under Gen. Ivan Kavalerov, a man who has been in command of the left wing since Gen. I. A. Konev is absent at Orel, 169 miles southwest of Smolensk, 100 miles northwest of Moscow. A British army is believed striking directly at Gomel, Gomel's great advantage.

But it has not mentioned operations and military men are afraid of over-optimism but three reports are that the Germans' retirement has been decided.

Russia's men were striking with a powerful spearhead of 400,000 men. Now with tanks of Field Marshal Bok's army in the area much of

the marches seemed to be threatened. All reports indicated that operations were aimed at a 175-mile front between Smolensk and Orel, the northern end of the Pripet marshes, in the first big Russian counter-offensive of the war. It was understood in authoritative quarters today.

American Saboteurs

It will afford satisfaction to every
Canadian and to every American of
good will that President Roosevelt has
at last openly named opponents of
assassination to Britain as "verbal saboteurs."

Heretofore, the isolationists and their
hilk have been permitted to pass as well-
intentioned political adversaries.

Mr. Roosevelt now reads into their
behavior something of a criminal ele-
ment. For a moment, whether verbal
or otherwise, is an illegal person en-
gaged in illicit acts.

Having plainly dubbed their per-
formance as an offense, perhaps the
President will next proceed to do some-
thing about it.

The next step after giving a crime
a name is to punish it.

An Equivocal Position

Prime Minister Robert G. Menzies
of Australia has resigned his post as
head of the Australian government and
will shortly leave for London to repre-
sent his country in Empire was con-
firmed yesterday.

Menzies felt keenly the need
for such representation and he obvi-
ously felt that he was the logical man
to give it. The Australian parliament
disagreed and Menzies, as a prime
minister, was in his own country
try at the head of his own government.

They could not see themselves be-
ing governed from London even by a
duly-elected Australian.

No course of politics which has
been operating in Australia seems to
leave Mr. Menzies in a highly equivocal
position.

If his disagreement with his own
parliament was sharp enough to cause
his resignation, from his point of view,
he would have to represent that par-
liament adequately in London?

Any Dominion's representative go-
ing to London permanently would ap-
pear to be in the same position. He
would have to have too much power
or not enough.

If he was given enough power to be
useful in London, it might very well be
argued that he should exercise that
power more safely at home under the
eye of his own parliament.

Russian Determination

Nothing has symbolized so com-
pletely the unflinching determination
of the Russians to fight to victory as
the destruction of the great Dnieperstroy
dam.

With this dam and its hydro-electric
plants, the Red Army with the occupied
Dnieperstroy after a fierce fight over the
bulk of a vast industrial development on the
lower Dnieper River.

"We'll burn the dam," said S. A.
Lozovsky, Soviet spokesman, so as not to
allow the first child of the Soviet
five-year plan to fall into the hands
of the Hitler bandits.

It had supplied an area of 70,000
square miles and a population of 16,-
000,000 persons with an annual output
of 2,500,000 kilowatt hours of electric
current.

While the world admired the Russians
for the uncompromising manner
in which they carried out their new man-
ifestation of Stalin's iron will, they
forgot it was not forgotten that the
forced giving up of this territory was a
setback of importance to the Soviets.

Loss of the factories powered by the
Dnieperstroy hydro-electric develop-
ment immediately put a new burden on
the factories the Russians have developed
further east.

It also made necessary a speeding
up of supplies from the English-speaking
countries.

On the credit side of the ledger Brit-
ain and Russia established a new back-
door supply route through Iran which
culminated in the fourth day of an Al-
lied invasion.

Calling Japan's Bluff

Some weeks ago it was said on the
page, in another column, that Japan
was getting up a huge bluff against
Britain and the United States and that
a firm attitude on the part of those lat-
ter countries would doubtless cause her
to moderate her threats.

The events of the past few days
appear to be bearing out that view.

Prince Konoye has sent a personal
letter to President Roosevelt and urgent
complaints are being made daily
between Japan and America.

It is obvious that the Japanese are
more than anxious to smooth away the
hazardous difficulties which have
arisen between them and the English-
speaking nations before the war
which bankrupt Japan into a
hopeless war.

There is even talk that Japan may
 forsake her Axis alliance and embark
on an entirely new policy in the Pacific.

Stranger things, of course, have
happened. But if this rumor is not ac-
tually translated into fact, it at least
shows the direction of Japanese thinking.

British and American economic
sanctions applied against Japan have
struck that latter country a terrible blow.
Her people are beginning to realize
that the little taste of economic em-
barrassment they have had would be
nothing to a hundredfold were they to
get into war.

There is still a grave menace in the
situation. The negotiations might eas-
ily break down at any point with the
surgeon of the jingoistic party in
Japan. Not to do any of these conciliatory
gestures would be abandoned to the slightest degree her
ambitions in the Pacific.

She still wants the East Indies, Malaya, Thailand and Singapore.

But her tendency, right now, is to
offset the dangerous consequences of
the Japanese campaign.

The currently bitter campaign in
the Japanese press against President
Roosevelt has little significance.

It might be the Japanese conception
of "saving face" to court Mr. Roose-
velt diplomatically and damn him
ideally. They may feel that, for
their souls' sake, one counterbalances

the other.

Independents To Talk Future Status At November Meet

Lieut. Keefer
Of Royal Navy
Dies In Action

For more than a decade member of the Hudson's Bay Company for trade department with which he served in the city and the North West Territories, Lieut. Charles Keefer, R.N., has been killed in action in the Battle of the Atlantic according to information received here. He would have been 30 years old on September 21 next.

Characteristics of the engagement are lacking, the main details to hand so far being that the warship on which he was serving went to the assistance of a ship ailing following an attack and in the resulting action, Lieut. Keefer was killed.

BORN IN OTTAWA
Lieut. Keefer was the son of Mr. and Mrs. Allan Keefer of Ottawa and a grandson of the late Hon. Frank Oliver, founder and first publisher of the *Advertiser* and Oliver. He was born and educated at Ottawa. At an early age he joined the Royal Canadian Navy as a midshipman. After becoming a lieutenant under the training system then in vogue, he retired on leaving certain ratings and to make room for new trainees.

About 10 years ago he joined the fur trade department of the Hudson's Bay Company and spent nearly 10 years with the company at Fort Smith, Norman, Fort Vermilion and others. Following his return, he advanced courses in special work in Scotland and Newcastle, came to this country and obtained a position in one of the largest battalions in the Royal Navy and obtaining a few days leave he had to visit friends and relatives.

Returning east he crossed back to England soon after. The last letter received from him was dated July 16 at the Plymouth naval barracks on July 16 and indications were that he would soon be at sea.

Plans Completed
For Ilsey Visit

Plans were completed Tuesday for the visit of Hon. H. G. Ilsey, Minister of Health, to the city. Federal finance ministers, who will deliver an address of current interest at a luncheon meeting in the Macdonald at noon. He will speak on the subject of "Buying the Dollar Sign," the meeting, sponsored by the Edmonton Chapter of Canadian Women's Service, will be held at the Men's Canadian Club of Edmonton.

He will arrive here at 6:30 a.m. by C.N.R. train from Saskatoon. Following the address the finance minister will meet canversers at the recent Victory Loan campaign at 2:30 p.m.

"Accompanying the minister is D. B. Mau, executive director of the Victory Loan Commission, and R. A. Bruce of the Canadian Department. Following their visit here the party will proceed to Pacific coast."

The full program was contained in 24,000 copies of the *Edmontonian* on Aug. 18, 1940, according to latest census figures.

Defenders Of Threatened Star and Crescent

This country, threatened by reported massing of German troops on the Bulgarian border, Turkey, air, land and sea forces stand ready to repel invasion. Armed forces: Turkey's modern air force includes 800 bombers, 100 attack bombers, top; her army has mechanized divisions as well as rugged cavalry, centre; and the star and crescent flies over her warships, like the battle cruiser Yavuz, bottom, in the Black Sea, the Dardanelles and the Mediterranean.

Several girls from all parts of Canada who went to Toronto for the Canadian National Exhibition as competitors in the International Typewriting Marathon are donating their spare time in the interest of Canada's War Savings program. Ordinarily, they would spend only two hours at the typewriter every day in connection with the speed competition. The rest of the day would be available for sight-seeing. But these girls volunteered, instead, to give their time to the war effort. Left to right, they are Sophie Michas, Halifax; Bess Polansky, Montreal; Kathleen Stephenson, Winnipeg; Joan White, Vancouver; Goldie Hiller, Edmonton; Ethel Croson, Regina; Ruth Treen, Saskatoon; Anne McKenzie, Whitehorse, Yukon; Gertrude Mollinna, Regina; and Gilberte Charon, Ottawa. The other members of the Canadian team are Elsie Beston and Roy Harrison of Toronto.

Two Years Of War—528 Days Of Battle

The war of three continents has raged for two full years, but of the 731 days of conflict, only 528 have been spent in actual battle on land. While the war in the air and at sea has gone on continuously since Sept. 1, 1939, the conflict in Europe, Africa, and Asia has divided itself into the several campaigns shown on map. Although the 198-day Yugoslavia-Greece campaign, including Crete, seems the longest, it includes only 55 days of action, leaving Russia the record for longest resistance to the German blitz.

BOMBERS BY NIGHT—As America's defense drive speeds into high gear, every foot of working space and hour of time are being put to productive use. Year Limit Is Now Fixed On Oil Permits

Excesses of provincial lands for oil production purposes, must commence drilling within one year of issuance of a license according to new regulations governing disposal of petroleum rights issued yesterday by Hon. W. E. Turner, minister of lands and mines. The new rules also provide for enlarging the maximum area of oil and natural gas rights obtainable on application.

Declaring that a great deal of time had been spent by this new series of regulations were in the interests of the development of potential oil lands in the province, Mr. Turner pointed out that until the regulations came into force, the maximum area that could be acquired by application was 2,500 acres of provincial and state lands. Now it will be possible for an individual or company to obtain 8,000 acres and the maximum area obtainable within a year from the date of the lease.

Mr. Turner further emphasized that there should be no漫漫standing as to the drilling requirements. A lessee owing more than one lease is enabled to commence his drilling on any of his leases as long as they are within 25 miles of the well's site and drilling cost of the well, inclusive of expenditures for the well, the lease and exploratory operations, can be established as a credit to be carried on rentals.

He explained that "Where the credit is in excess of the amount needed to satisfy the group of lessees, the percent of such excess will be based on the amount of rentals or other leases on which oil or natural gas has not been taken out, but the maximum that may be satisfied from credit in any year is 35,000 acres."

Continuing, he stressed "The need was there that has taken place of the testing wells, which are scattered on several wells at the same time." In the new regulations he said, it is permitted for the owner of leases to claim five percent of the area in improved territory, to contribute to the drilling of the test well and will have leases protected as long as his contribution is not less than \$1,000.

RECEIVES PART CREDIT

Such contributor is entitled to receive part of the credit and any excess will be carried over to the "wildcat" effort and this credit must be of the contributor's lease. Hon. Turner was expressing that the coming meeting of the committee representing the oil companies, the government and the bondholders, would result in a satisfactory settlement of the problem of the bondholders' plan for the full operation toward achieving this result.

Decision took place on the offer of Hon. Turner that the new regulations be suspended for a period of time, which had in mind the abandonment by the provinces of the income and corporation taxes, the provinces' share of the cost of the war and one year afterwards and the payment to the provinces, in lieu thereof, of compensation amounts from the Dominion treasury.

Copies of the new regulations are available in pamphlet form from the lands and mines department, mineral resources and land agents at Peace River and Calgary.

Storage Problem For Wheat Crop

The big problem in connection with this year's wheat crop is storage, according to S. J. Hungerford, Montreal, chairman of the board of directors of the C.N.R. and former president.

Mr. Hungerford passed through the province yesterday and was impressed by the large amount of shipbuilding and general construction at various points along the Pacific coast.

Commenting on the business of the C.N.R., Mr. Hungerford said that earnings for the first half of the year are approximately 25% above last year. He stated that the C.N.R. had adopted the most effective method of moving the crop, but the question was one of storage.

Mr. Hungerford was accompanying his daughter Miss Alice Hungerford to Montreal; his granddaughters Miss Alethea, Rosamond, and Miss Adrienne, Toronto, and his wife, Mrs. Alice Hungerford, of Ryde, England.

Man Attempts To Take His Life

Mr. Newell, who has farmed in the district nine years, was engaged in haying operations with his team.

The man left to go fishing and when he returned his father was missing.
